## **Historic Architectural Estate with 2026 Renovated Kitchen, Fully-Owned Solar, and Exceptional Original Details**

This distinguished residence seamlessly blends historic craftsmanship with modern efficiency and thoughtful upgrades.

The **kitchen and butler's pantry were fully remodeled in January 2026** and feature new stainless steel appliances, a smart slide-in double oven with built-in air fryer and oven probe, and a two-zone wine refrigerator.

The home includes a **10kW fully-owned solar panel array**, high-efficiency natural gas boiler, two-zone central air, and custom storm windows and doors designed to preserve the original French casement windows while improving sound and temperature insulation.

Architectural highlights include:

- Grand foyer with original hand-carved columns, walnut paneling, and restored barrel-vaulted ceilings
- Dramatic sunken living room with 10-foot ceilings and dentil, bead-and-reel, and egg-and-dart mouldings
- French doors opening to patio
- Grand dining room with original mahogany paneling
- Sunroom with bowed wall of windows, planked ceiling, and fireplace
- Two restored copper cupolas
- Refinished original wood floors

Primary suite features:

- Dressing room
- Four built-in closets
- Large bath with double vanities, jetted tub, and shower with body sprays
